

Shipping for Overseas Customers

In order to calculate shipping costs- please add the item/s to your cart to use the shipping calculator feature. You may delete the item from your cart afterwards if you wish.

Attention All Worldwide Overseas Customers!

All Overseas customers must use the Priority International Mail Shipping method and purchase insurance in order to track their package as it travels to their country, and in order to cover loss or damages. Please note that we also offer Economy First Class International Shipping, which does not provide tracking to all countries or insurance protection for losses or damages. It is your choice to select either shipping method, but Doll Anatomy is not responsible for any losses or damages, and cannot process any claims for dolls that are not shipped Priority Mail or insured. In addition, you need to know that once your package arrives- there may be **customs fees** that your country may require you to pay before they release your package. **Any import duties, taxes, and charges are not included in the item price or shipping cost. These charges are the buyer's responsibility.** Please check with your country's customs office to determine what these additional costs will be. Thank you for your cooperation.

Please note that shipping is not free. If for any reason you are not charged for shipping during checkout- expect an invoice for the cost of shipping to your country. If the shipping invoice is not paid- we cannot ship your doll, and may issue a refund and re-list the doll for sale.

We are happy to report that all of the many dolls shipped Overseas made it safely to their destinations in 2015!
